Why Sonic?

At Sonic we help our customers grow their business successfully. We offer creative solutions while improving your products and time-to-market launch. We help keep costs down while providing the highest level of quality to positively impact your bottom line. Our customers come first every time, all the time.

At Sonic you get:

- Local, easy access – regional operation
- “Can do” attitude – “no” is never an answer
- Creative solutions – customers always come first

Design & Engineering

A recent high-reliability project utilized Sonic's design and engineering capabilities: “Sonic was awarded the project based on stringent guidelines – Sonic accomplished the firm's goals in the desired time frame. In effect, Sonic excelled in driving concept to fruition.” The project is an integral part of the West Coast Power Grid.

PCB Assembly & Total Systems Solution

Sonic responds to your most challenging EMS requirements. We understand what our customers want to achieve and provide the best total systems solution. At Sonic, we take the extra steps necessary to meet and exceed our customers' expectations, and we're committed to delivering tailored solutions in response to your individual needs. Whether it's one unit or ten thousand we are ready to partner in your success!

Logistics & Supply Chain

Sonic provides world-class logistics and supply chain solutions that enable our customers to meet the challenges in today's industry. We offer a broad spectrum of value-added services:

- Warehousing & Distribution
- Order Management
- Inventory Management
- Reverse Logistics & Repair Depot
